## USS CHANDLER (DDG 996)

### SHIELD ...

Dark blue and gold are the colors traditionally associated with the Navy and symbolize the sea and excellence. The wavy Chevron, compass rose and pheons symbolize the northward sweep through the Philippines, in which Rear Admiral Theodore Edson CHANDLER participated and which ended, for him, in Lingayen Gulf where he earned, for extraordinary heroism, the Navy Cross, represented by the convex cross patee. The pheons and compass rose also denote the guided missile striking capabilities of a KIDD Class destroyer.

### CREST ...

The rampant demi-lion, a symbol of courage and fighting spirit represents Admiral CHANDLER's extraordinary heroism. The fountain denotes Lingayen Gulf, the wall and flames the fiery bridge of the flagship, LOUISVILLE, from which Admiral CHANDLER continued directing the pre-invasion bombardment support units after a suicide bomber had crashed the flag bridge. He remained stouthearted and indomitable among the flames.

### MOTTO ...

"AD MORTEM FIDELIS" is the CHANDLER family motto. The translation, "FAITHFUL UNTIL DEATH," aptly describes Rear Admiral CHANDLER's extraordinary heroism and devotion to duty in giving his life to save his ship. It also summarizes the commitment of each CHANDLER sailor to endure the burden of maintaining his freedom and that of his loved ones and countrymen.

### MISSION ...

Required to operate offensively, in the presence of air, surface, and subsurface threats with carrier strike forces or amphibious assault forces; to provide protection to these forces, and to anti-submarine forces, under way replenishment groups and military and mercantile convoys, against subsurface or surface threats; and to provide gunfire support to amphibious land campaigns.

*USS CHANDLER (DDG 996), the 3rd ship of the fleet to bear this name, was built by the Ingalls Shipbuilding Division of Litton Industries, Pascagoula, Mississippi. Her keel was laid on 7 May 1979, and commissioned on 13 March 1982 by Mrs. Theodora Hoskinson.*

*CHANDLER is one of four United States Navy Guided Missile Destroyers of the Kidd Class. She is a 563 foot destroyer which incorporates many hull and engineering features of the Spruance (DD 963) Class destroyers. The weapons suite aboard CHANDLER is very similar to that aboard the Virginia (CGN 38) Class nuclear powered cruisers. This combination optimizes speed and economy, while also making CHANDLER one of the most powerful ships at sea in terms of strike capability. At over 9200 tons, CHANDLER is one of the largest destroyers in the fleet and carries a formidable array of both offensive and defensive weapons and electronic systems. The ship is designed to operate in a multi-threat environment; countering air, surface and subsurface threats simultaneously.*

*After commissioning in 1982, CHANDLER proceeded to her homeport, San Diego, California and joined Cruiser Destroyer Group 5 and Destroyer Squadron 9. After a brief shakedown cruise and refresher training, CHANDLER returned to Pascagoula, Miss. for a post shakedown availability period of about 5 months. After PSA, CHANDLER returned to San Diego, Calif. and commenced further training for fleet deployment. In August 1983, CHANDLER was assigned to Cruiser Destroyer Group ONE and Destroyer Squadron 23, and subsequently joined Battle Group BRAVO for her first Western Pacific Deployment. CHANDLER has been Destroyer Squadron 23 Flagship since September 1983.*

*On 1 August 1984, CHANDLER returned from a 6 and a half month deployment with Battle Group BRAVO to the Western Pacific and Indian Ocean including over 70 days of continuous underway operations. CHANDLER made port visits in Hawaii, Philippines, Korea, and Australia.*

*“I am tired of talking about what the threat is. Let us be the threat. I want to read about how Admiral Gorshkov stays awake nights worrying about our threat to his navy.”*
